CANON VIDEO MODULE OPERATION GUIDE

1. Ensure that the video module is plugged in to housing trigger cable. The front of the module,  must face the camera.
2. Turn the camera on.
3. Press 'DRIVE' button to change drive mode.
4. Use the scroll wheel to change the mode to Remote/Timer mode.
5. Remote/Timer mode icon.
6. Switch camera to video mode - Live View will begin.

Your camera is now setup and ready to accept an IR signal to start/stop video recording. Use the trigger button to operate the Video Module.
